ARYAN

1st-Year B.Tech CSE (AI & ML) Student | Aspiring Software Developer

Phone: +91 8233903085 | Email: paneerlababdar04@gmail.com | Portfolio: Aryan.dev

EDUCATION

Bachelor of Technology - Computer Science & Engineering (AI & ML)
1st Year Undergraduate | Expected Graduation: 2030

Higher Secondary Certificate (Grade 12)
Academic Score: 86% | Science & Mathematics Focus

TECHNICAL SKILLS

- Programming Languages: Python, C++
- Artificial Intelligence & ML: Basic ML (scikit-learn), Data Preprocessing, Regression & Classification
- Web Development: HTML5, CSS3 (Flexbox/Grid, Responsive Design), Modern JavaScript
- Developer Tools & VCS: Git, GitHub, VS Code, Linux/Bash Basics
- Core Competencies: Problem Solving, Algorithmic Thinking, Data Structures, OOP Fundamentals

PROJECTS

Housing Price Predictor | Python, Scikit-learn, Pandas
- Built a predictive model using Scikit-Learn to estimate real estate prices from multi-variable data.
- Applied data cleaning, feature scaling, cross-validation, and error evaluation metrics (RMSE, R2).

Student Record Management System | C++, OOP, File I/O
- Developed an interactive command-line application in C++ to manage, search, and store academic records.
- Leveraged Object-Oriented principles, persistent file storage, and robust error handling.

Modern Personal Developer Portfolio | HTML5, CSS3, JavaScript
- Designed and engineered a responsive, high-performance dark-themed developer portfolio.
- Implemented glassmorphism aesthetics, fluid layout, interactive navigation, and instant resume download.

HOBBIES & INTERESTS

- Badminton: Active badminton player, promoting stamina, tactical agility, and quick reflexes.
- Video Games: Passionate gamer; fosters strategic thinking, fast-paced decision making, and team play.
- AI & Technology: Continuously learning new advancements in machine learning and software development.
